5. Guidelines	5

1. Objective

The purpose of this policy is to govern the tenets of BAL Internet facility provisioning, ethical usage and management.

2. Overview

This policy determines the acceptable norms to all who are permitted to use the internet facility provided by BAL, to support their business objectives.

3. Scope

This Internet Policy applies to all employees, partners, contractors, consultants and dealers of BAL who have been provided access to the Internet for performing their work.

Use of the Internet by employees of BAL is permitted & encouraged where such use supports the goals and objectives of the business.

However, access to the Internet through BAL is a facility and all users must adhere to the policies pertaining to the Internet usage. Violation of these policies would result in disciplinary action and/or legal action, that could lead up to the termination of employment. Employees may also be held personally liable for all damages caused by any violation of this policy, if found accountable/responsible.

4. Policy

a. Internet access for BAL Employee

Access to the Internet would be given basis the following table: -

Table-1

Sno	Position Level	WP1	WP2	L0/L1
1	L0/L1	No	No	Yes
2	L2	Yes	No	No
3	L3	No*	Yes	No
4	L4	No	No*	No

**Exceptional access would be given based on the Dept Head's Approval*

Note: Please refer 5. Guideline section for the categories WP1, WP2 and L0/L1.

b. Internet access for Partner, Contractors, Consultants and Dealers

Anyone working in BAL office premises would be provided access to the internet basis Table-1, provided there is an approved business need.

c. Internet Usage Monitoring

MIS will filter / monitor browsing and prohibit access to certain websites as per management guidelines. MIS function can and will monitor all Internet usages. All Internet activities can and will be logged for further review.

d. Control / Content Filter

MIS can and will block certain Internet activities that are deemed unsuitable and/or unacceptable. The technology & infrastructure has been implemented at BAL helps in restricting internet access to certain categories like Online Trading, Dating, Gambling, Hacking, Adult content etc.

Exceptions: As per business requirements basis appropriate approval & justification, users from certain functions would be provided access to Finance, Online shopping, Social Networking & Streaming Media (online video content) etc. categories.

e. Acceptable Usage & Controls

1. Users are expected to use their access to Internet responsibly and productively.
2. Users should use the internet facility to perform job-related activities including research that would help the user's role.
3. The equipment, services & technology used to access the Internet are properties of BAL and the company reserves the right to monitor Internet traffic.
4. BAL reserves the right to monitor and access data that is composed, sent or received through its online connections.
5. Sites and downloads would be monitored and/or blocked by BAL if they are deemed to be harmful and/or not productive to business
6. All Internet data that is composed, transmitted and/or received by BAL's computer systems would be considered as BAL digital property.
7. As there are newer threats emerging on a regular basis on the internet, users are advised to disclose any inadvertently accessed sites that are not permitted and not blocked by BAL systems due their recent emergence, immediately such that appropriate action could be taken.

f. Unacceptable use of the internet

1. Using computers to perpetrate any form of fraud, and/or software, film or music piracy
2. Stealing, using, or disclosing someone else's password without authorization.

3. Downloading, copying or pirated software and electronic files that are copyrighted/trademarked without authorization.
4. Sharing confidential material, trade secrets, or proprietary information outside of the organization.
5. The installation of software such as instant messaging technology.
6. Hacking any website / system.
7. Sending or posting information that is defamatory to the company, its products/services, colleagues and/or customers.
8. Introducing malicious software onto the company network and/or jeopardizing the security of the organization's electronic communications systems.
9. Sending or posting chain letters, solicitations, or advertisements not related to business purposes or activities.
10. Passing off personal views as representing those of the organization.

5. Guidelines

Below category of internet access to be provided to users as defined in policy above.

- Internet access will be revoked once employee separates/resigns/retires from BAL.
- Internet facility provided is for official use and business communication alone. Only a reasonable personal use would be allowed.

DOs

1. Do access internet only through the connectivity provided by BAL.
2. Do make optimum use of the data cards provided.
3. Do delete cookies & temporary files periodically to help improve performance.
4. Do use internet in an acceptable way & comply with all the policy norms.

DON'Ts

1. Do not download any software / freeware / shareware from internet.
2. Do not upload files, software or information belonging to BAL to any internet site.
3. Do not download songs, movies, humour clippings, advertisements or pornographic material and other non-business or non-productive data.

4. Do not access internet by connecting personal modems or mobile devices while connected to company network. This may compromise our setup.
5. Do not put the company at risk by the misuse of the internet viz. fraud, piracy, hacking, harassing users.
6. Any breach of the organization's Internet acceptable use Policy may lead to strict disciplinary action.
7. Do not send official data on personal email id or upload data to free filesharing storages unless it is explicitly approved by concerned department heads (not less than L1) clearly specifying business need and purpose.

Note: Employees would be liable for any infringement/violation/consequences thereof.
