Amendment to Policy on Mobile Phones

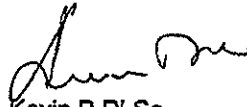

The procedure relating to recovery of excess bills on mobile phones and recovery towards personal calls is being simplified as below:

1. Level & Function-wise limits are indicated in the Policy on Mobile Phones dated 27th December 2011. Since these limits were decided based on actual usage data, it is expected that the bills will remain within the limits.
2. There is no need for an employee to declare his personal numbers in the system. If the monthly bill amount is lower than the limit prescribed, no recovery will be made from the salary of the employee.
3. Employees, who exceed the prescribed limit, may seek L1 approval (L1 Managers will self certify) if the excess is due to official calls. Such certification should reach MIS before 25th of the month. In the absence of such certification, excess will be recovered from the employee.

The above changes will be effective from 1st October 2012.

Policy on Mobile Phones

HR/

December 27, 2011

Employees are provided mobile phone services by the company as per role and business needs. This will be governed by the following guidelines.

1. Procedure for SIM approval:

Level	Approving authority
L0/L1	All L0/L1 are allotted a company SIM. For new joiners, HR will inform MIS.
L2 and below (HO/Plant/Overseas)	Function L1
L2 and below (Field employees in India)	DGM (HR)

2. Employees will be provided with the SIM only. They will buy their own handset.

3. MIS will source the service from suitable service provider/s, negotiate tariff and manage periodic billing & payment.

4. Limits for mobile expenses for employee groups are defined as below.

Level	Rs. p.m.
L0	At actual
L1	1500
L2	750
L3 and below	500

- For field employees and IB employees, separate limits already notified will apply.

5. ISD and International roaming to other than those in L0/L1 will be provided on need basis for a specific duration after prior approval from the L1.

To reduce international roaming charges, MIS can provide local SIMs of other countries, wherever feasible and practical, without compromising important functionalities.

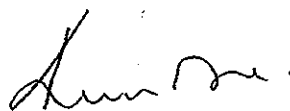

6. GPRS / 3G services will be provided based on the following guidelines :

- a) For employees in L0/L1, suitable Blackberry / GPRS plan will be provided on company account, including other value added services (VAS) & miscellaneous data services.
- b) For employees in L2 and below, this will be provided on need basis. Monthly rental and usage charges will be on company account. Other value added services & miscellaneous data services will be on personal account.
- c) The expenses on this service will be within the overall limit mentioned in clause 4 above.
- d) Employees desirous of having this facility on personal basis will approach MIS and expense on account of this will be recovered from their salary.

HR

- e) While on travel, employees should use discretion in using GPRS / 3G services since data transfer charges on roaming are very high.
7. Employees should pay for their personal calls. Employees can opt for any of the following:
- a) Declare personal mobile numbers in the system. The system will then generate statement of expenses for these numbers and send to finance for deduction from salary.
 - b) If an employee does not wish to declare his/her personal numbers in the system, an amount equivalent of 25% of the bill amount will be deducted from the salary every month.
8. In case the monthly bill exceeds the prescribed limits, the following procedure will be followed:
- a) The employees will get notification of the bill through email before 10th of every month. They will declare personal calls / numbers (in addition to the personal numbers already declared), if any, by 15th.
 - b) MIS will send a consolidated statement for the function to the respective L1s, by 18th of every month, in respect of those employees where the monthly bill, excluding personal call charges, exceeds the prescribed limit by 20% or more.
 - c) The L1s will peruse and authorize the excess expense and indicate if any recovery is to be made.
 - d) In case of L1, the statement will go to the respective L0s.
 - e) In the absence of authorization by L0/L1, the excess amount will be recovered from the salary of the individual.
 - f) In case the monthly bill for any function or a particular role in the function is consistently higher than the limits, due to the nature of the job, the function head (L1) will request for a review of the limit for the function or for the role. In such cases, the limits will be reviewed by VP(HR) and President (Finance).
9. MIS will once in a year send the list of employees provided with mobile service to L0/L1 for review.
10. This policy will be effective from 1st January 2012.
