b. Asset Records

- All MIS systems must have asset numbers and must be registered in the Asset Management System.
- All details of users and owners of BAL MIS issued assets must be captured in Asset Management System.
- BAL MIS issued asset users and owners must periodically self-certify their assets present in the MIS records.
- BAL MIS issued asset users and owners must inform MIS helpdesk if any asset is 'lying idle' / 'not in use' in their office to ensure safety of such assets.

c. Access Controls

- Issuance of assets by BAL MIS to access, critical systems must be strictly controlled on need to have basis alone.
- Critical assets like servers and storage must have the following environmental controls as per the MIS Physical Security Policy-022.

d. Roles and Responsibility

- Users and owners of BAL MIS issued assets must take completely responsibility to physically safeguard & secure them from any damage or theft, including while on travel.
- In case any BAL MIS issued asset/s is/are misplaced / lost / stolen / damaged, users and owners of such assets must inform their Department Heads, respective location's BAL CSO (Chief security Officer), and the MIS Helpdesk immediately.
- In case any BAL MIS issued assets are misplaced / lost / stolen / damaged, the Written Down Value or Market Value, whichever is higher, would be recovered from concerned users and owners

5. Guidelines

- Contact MIS helpdesk in case of any queries or help required.
- Cooperate with MIS support staff to maintain asset records up to date.
