

JULY 2026

Fuel & Maintenance Benefits through Pluxee Card

Background

Previously, LeasePlan, our car lease vendor, stopped offering Fuel and Maintenance benefits, and no other vendor in the market provided this. To ensure our employees continue to enjoy these benefits, Bajaj Auto has partnered with Pluxee to offer the Fuel and Maintenance benefit, in addition to the existing Meal benefit.

Scope of the Policy

- This policy is applicable to all EX & above employees of BAL & its subsidiaries across locations who have opted for a car under company car scheme with Bajaj Finance Limited (BFL).
- Employees who have an existing car lease with LeasePlan are not eligible for this benefit.
- Employees must have a Pluxee card to avail this benefit. New cards will be issued to eligible employees who do not have one.

Benefit Overview:

Purpose of this Benefit:

The Fuel & Maintenance Wallet is a voluntary employee benefit designed to simplify the management of fuel and maintenance expenses for your company-leased vehicle. This benefit leverages the Pluxee card system, making it easy to pay for fuel and maintenance directly via a digital wallet.

How It Works:

1. **Opt-In:** After opting into this benefit, the amount for fuel and maintenance will be deducted from your flexi basket which is the sum of your conveyance and miscellaneous allowances each month and loaded onto your Pluxee card, similar to how the meal card operates.
2. **Usage:** Once the funds are loaded, you can use the Pluxee card for fuel expenses at any merchant accepting RuPay cards and for maintenance at authorized service centers.
3. **Fuel and Maintenance Expenses:** The wallet amount will be strictly for fuel and maintenance of the company-leased vehicle only.

Limits and Eligibility:

The monthly fuel and maintenance wallet limits are based on the on-road price of your leased vehicle. Below is the maximum limit that applies to each vehicle category. The amount deducted will be subject to the car lease rent limit, as per the formula shared in the Car Lease policy.

Fuel Limits:

Vehicle On Road Price	Fuel Limit (Rs. per month)	Maintenance Limit (Rs. per month)	Total Limit (Rs. per month)
Up to Rs. 25 Lakhs	20,000	5,000	25,000
Above Rs. 25 Lakhs but not exceeding Rs. 50 Lakhs	25,000	10,000	35,000
Above 50 Lakhs	30,000	15,000	45,000

Values are indicative and subject to change.

Lease rent limits apply:

$$\text{Lease Rent Limit} = \text{Conveyance Allowance} + \text{Miscellaneous Allowance} -$$

Amount opted for NPS – Amount opted for Meal card –Car Lease EMI

The above table shows maximum limits. Lease rent limit must be more than the total limit for the employee to be eligible for availing this benefit.

Note: Employees can refer to their respective CTC annexures and calculate their Lease Rent limit.

Step-by-Step: How to Avail the Benefit

1. After opting in, once amount is deducted from flexi basket, it shall be loaded by Pluxee in the respective wallet
2. Pluxee app shall display wallet balance for each wallet type.
3. Fuel expenses: Use your Pluxee card at any POS-enabled petrol pump. POS-enabled petrol pumps are those that accept RuPay cards at the counter.
4. Employees have an option to fuel their vehicles in petrol pumps which are exclusively for Bajaj employees – the money in such cases shall be debited from employee salary directly following existing procedure. Please note that use of Pluxee cards in internal petrol pumps is **not** allowed.
5. Maintenance expenses: Pay for maintenance at an authorized service centre, upload the bill on Pluxee app, and await approval. Direct use of Pluxee card to pay for maintenance is **not** allowed.
6. Once approved, reimbursement amount moves from the maintenance wallet to multipurpose wallet. The multipurpose wallet holds the approved reimbursement amounts for maintenance expenses after the bill has been uploaded and approved on the Pluxee app.
7. Funds can be used directly without restrictions from the multipurpose wallet.
8. Before the first deduction, employees must choose fuel and maintenance amounts for the duration of the lease.
 - These amounts cannot be changed mid-lease, only at the start.
 - Employees must sign a declaration accepting these limits.
 - During the lease period, any unutilized amount will continue to remain in the wallet till the end of the lease term.

Fuel Benefit

The Fuel Wallet can be used to pay for fuel at petrol pumps equipped with Point of Sale (POS) machines. POS machines are devices that allow payment via cards directly at the counter. POS-enabled petrol pumps are those that accept RuPay cards at the counter.

You can use the Fuel Wallet via the **Pluxee Card**, which functions like a regular debit card linked to your wallet balance. The Fuel Wallet balance is only valid for fuel expenses for the leased car.

If a petrol pump does not accept Pluxee card. Employees can upload bills for reimbursement. Each bill must contain:

- Date of bill
- Merchant / vendor
- Amount paid
- Invoice / bill number

Note: Company-operated petrol pumps (internal petrol pumps) don't accept the fuel wallet for payment

- For such purchases, the payment will be deducted from your salary directly, following existing procedures.
- Pluxee will be informed, and the amount will be moved from the Fuel Wallet to the multipurpose wallet, where it can be utilized anywhere without restriction.

Maintenance Benefit

Amount loaded in the maintenance wallet can be used only for maintenance of your leased vehicle. Only maintenance bills from authorized service workshops are eligible.

The process for using this wallet is as follows:

- Employees must upload the bill via the Pluxee app and get reimbursement
- Maintenance bills must have:
 - Date of bill
 - Merchant / vendor
 - Amount paid
 - Invoice / bill number
 - Vehicle number
 - Name of the vehicle owner
- Please upload bills within 60 days of the transaction for approval. Any bills uploaded after 60 days will not be approved.

Approved amounts will be credited to the multipurpose wallet within T+3 working days. From there funds can be used anywhere without restriction.

Separation:

In case of separation of employee during the tenure of the leasing agreement, employee must pay the foreclosure value/buy-back value along with applicable charges (If any) of the car assigned to him/her. "No Objection Certificate" from leasing company would be the pre-requisite for full and final settlement of such employee

- Wallet benefits stop one month prior to separation. Amount of unutilised Fuel and maintenance will be mentioned on NDC by HR. Payroll will pay it as Ex gratia in final settlement.
- Remaining balances will be settled to employee's bank account after statutory tax deductions.

Foreclosure:

Employees, at any point of time, can foreclose the lease arrangement by informing Leasing company of his/her intention to do so.

- The employee will have to pay the foreclosure value/buy-back value as per the foreclosure schedule shared at the time of entering into tri-partite agreement along with applicable charges (If any)
- In case of foreclosure, remaining wallet balance will be transferred to employee's bank account after statutory tax deductions.

Income Tax & Perquisite

- Income tax & perquisites are governed by the existing government regulations
- The valuation of perquisite will be calculated subject to the prevailing income tax rules

The management reserves the right to modify or withdraw this scheme, in part or full, with or without the prior information to the employees. Any exercise of the Company discretion, wherever provided for, in this lease policy, shall be binding on the employee. In cases, where special considerations arise and need to be carried out resulting in deviations from the provisions of this policy, the prior approval of CFO and CHRO shall be required
